iNOEX is a pioneer in the development and production of innovative measuring and control technology. For more than 30 years iNOEX has been developing systems and technical solutions, which are precisely adapted to the specific requirements of the pipe, tubing, profile, wire and cable, and film extrusion industries. We offer measurement technologies such as Laser, X-ray, Ultrasonic, Terahertz and Gravimetric with outstanding results and have revolutionized the measurement and control technology of plastic extrusion sustainably. For our customers, this means material savings, product quality improvement and overall a more productive and efficient operation.

WCISA is a nonprofit corporate membership organization of North American suppliers of machinery, materials and accessories used for making all types of wire and cable. Members are based or have an established subsidiary in North America. WCISA's mission is to promote its member's products and services by providing member companies with representation, networking/social opportunities and services at wire and cable trade events and conferences. WCISA is active, both as an exhibitor and supporter, in wire and cable trade events and conferences throughout the world. WCISA also offers three types of scholarships to its member companies. Details and a member list can be found at www.wcisaonline.org.

"WCISA's Night Out In Germany"

WCISA® is hosting its semi-annual member outing in Düsseldorf, Germany, on the eve of the opening of the *wire 2020* exhibition, www.wire-tradefair.com. Details are as follows:
