Quantum Design's product lines, KTI and CTC, are both world-leading manufacturers of automatic splicers, turret rewinders and other web handling equipment for a variety of industries including the wire and cable industry. With over 3500 machines operating in 24 countries, KTI continues to improve its product lines to meet the needs of additional markets including spooled products.

WCISA is a nonprofit corporate membership organization of North American suppliers of machinery, materials and accessories used for making all types of wire and cable. Members are based or have an established subsidiary in North America. WCISA's mission is to promote its member's products and services by providing member companies with representation, networking/social opportunities and services at wire and cable trade events and conferences. WCISA is active, both as an exhibitor and supporter, in wire and cable trade events and conferences throughout the world. WCISA also offers three types of scholarships to its member companies. Details and a member list can be found at www.wcisaonline.org.
