Chemetall North America operates within the 'Surface Treatment' division of BASF, a global leader in specialty chemical technologies. Chemetall US, Inc., manufactures and sells a wide range of process chemicals for the ferrous wire industry, including zinc phosphates (and associated additives), reactive stearate coatings, polymer coatings, pre-coats (salt carriers), cleaners (alkaline & acidic) liquid lubricants and corrosion protection products, as well as providing extensive technical support and training options for the wire industry.

WCISA[®] · Wire and Cable Industry Suppliers Association[®] - is a nonprofit corporate membership association of North American suppliers of machinery, materials and accessories used for making all types of wire and cable. Members are based in or have an established subsidiary in North America. WCISA's mission is to promote its member's products and services by providing its members with representation, networking/social opportunities and services at wire and cable trade events and conferences. WCISA is active in wire and cable trade events and conferences throughout the world, in varying capacities, including as an exhibitor, supporter, sponsor and outing organizer. WCISA also awards to scholarships to employees and dependents of member companies as well as partner associations. Details and a member list can be found at www.wcisaonline.org.
